PROFILE

I'm a frontend developer from Palestine, deeply enthusiastic about designing stunning and practical user interfaces. With a steadfast commitment to my work, I concentrate on crafting clean, responsive code and delivering exceptional web experiences that harmonize creativity with high performance.

WORK EXPERIENCE

Social Media Website

[VISIT WEBSITE](#)

Developing The Front-end & back-end

- On this site you can register through Google or your personal email, then edit your profile within the site, then you will be able to participate with others by liking, commenting, sharing a post for everyone, and much more.
- It is primarily developed with NEXT.js

TO-Do List Website

[VISIT WEBSITE](#)

Developing The Front-end

- Todo List is a simple and effective tool that helps you organize your daily tasks.
- It allows you to create custom lists, set priorities, and track progress easily through a responsive interface that's suitable for all users.

My Portfolio

[VISIT WEBSITE](#)

Developing The Front-end

- Portfolio showcases my work and projects in user interface development and highlights my technical and creative skills
- Responsive design that follows sound principles of front-end development.
